"WHITE" EFFICIENCY HOMES

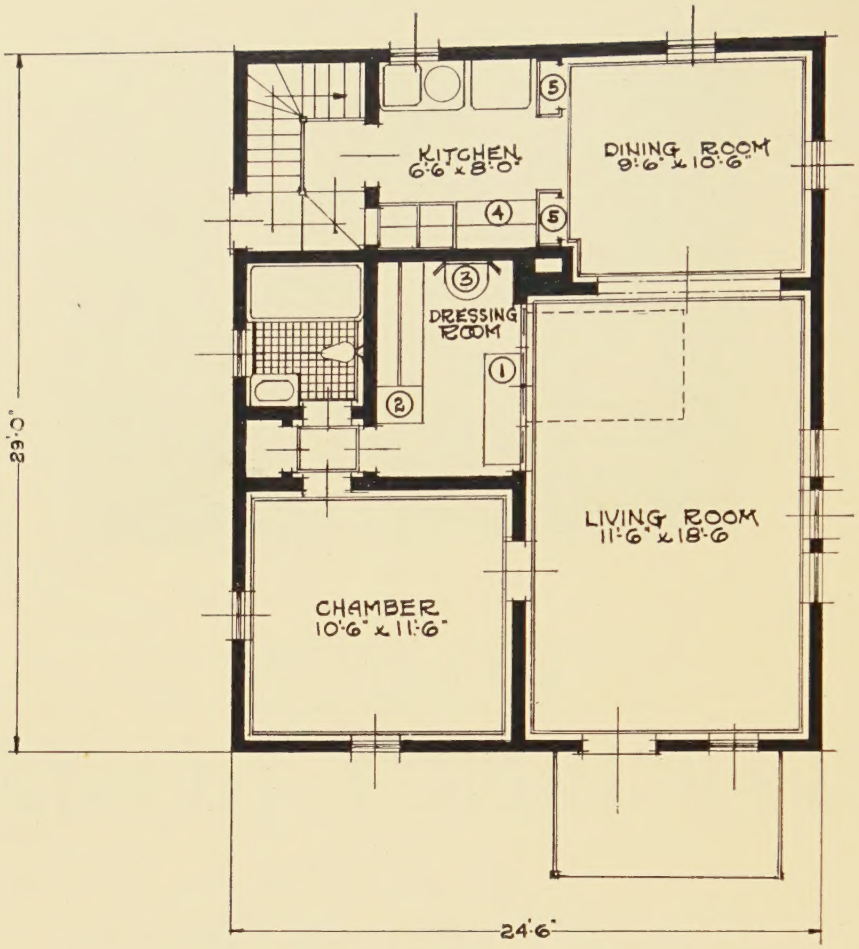
THIS book is intended for Home Builders, Architects, Realtors and others who are interested in materially reducing the building cost of the home without impairing its comfort. It shows how the use of "White" Door Beds and Space Saving Devices increases the convenience and efficiency of the home and reduces housework by utilizing space to the greatest advantage. We have shown here suggestions for plans and exteriors of various types of homes, from modest three room bungalows to larger cottages and twin apartment buildings. These arrangements may be reversed or otherwise varied to suit individual needs. Should none of these readily offer a suggestion to you, we shall be very glad to give you every assistance in adapting "White" Products to your particular project. Complete plans and specifications for the installation of the "White" Door Beds and Space Saving Devices are shown in our catalog WK97 which will be sent you on request.

THE "WHITE" DOOR BED COMPANY
130 North Wells Street ~ ~ CHICAGO



A COZY LITTLE ENGLISH COTTAGE

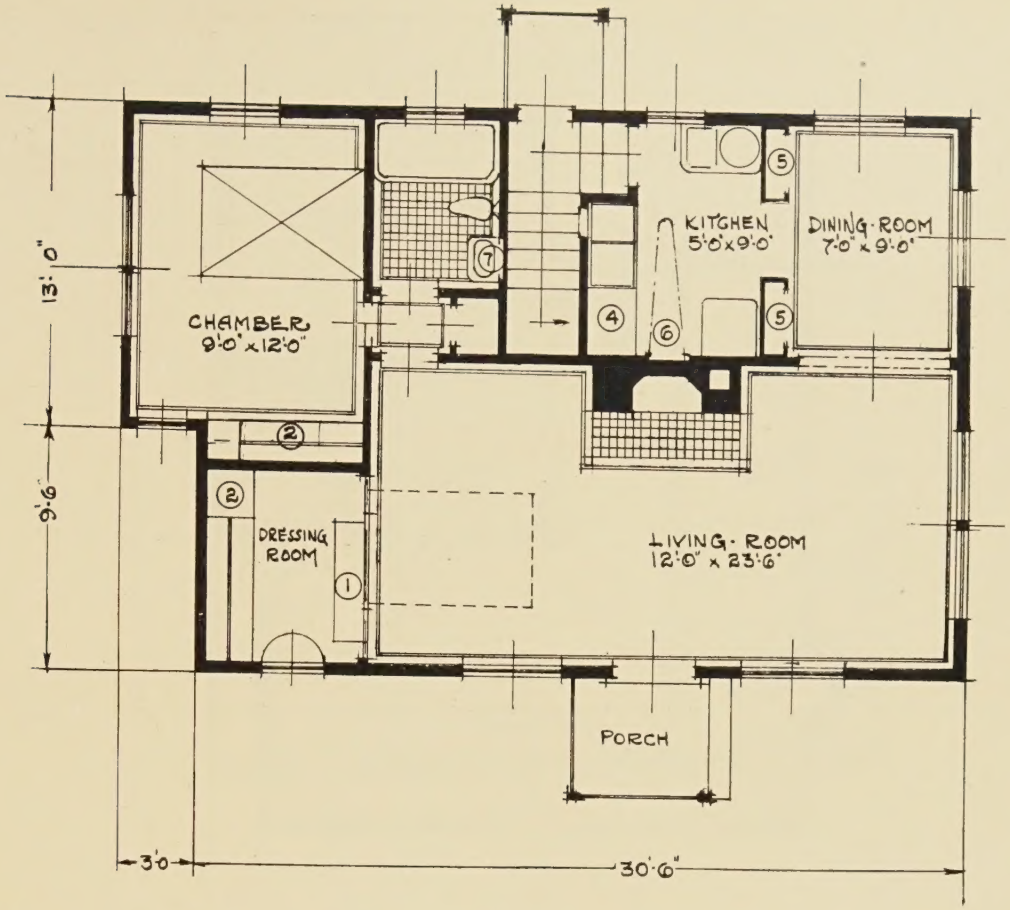
Four Rooms With Five Room Efficiency

Well suited to a narrow city lot. A full size door bed in the living room and a concealed dressing closet give this cottage the efficiency of an added room. Space saving devices in the kitchen will save many steps for the housewife.

Plan Number One

Key to the "White" Products Used in the Plan.

1. "White" Door Bed
2. "White" Dressing Cabinet
3. "White" Dressing Table
4. "White" Built-In Kitchen Cabinet and Refrigerator for Outside Icing
5. "White" China Cabinets



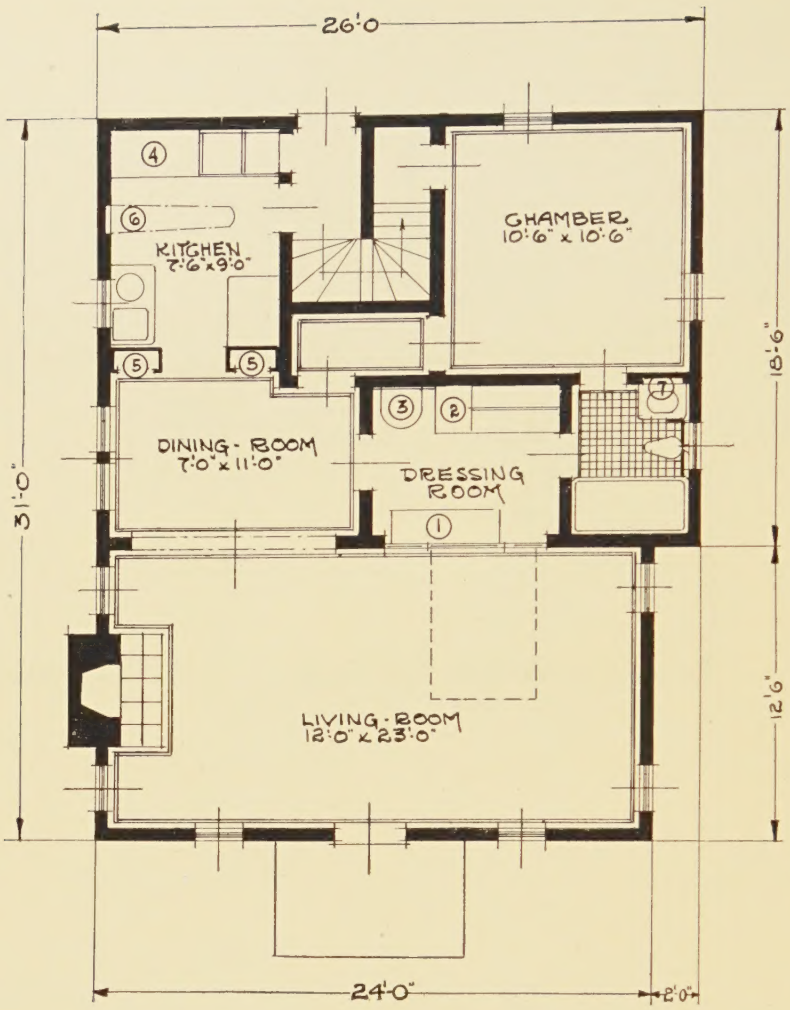
A SMALL HOUSE OF PLEASING DESIGN

Four Rooms With Five Room Efficiency

The use of a full size door bed in the living room instantly transforms this into another bedroom at night. A dressing cabinet in the regular chamber adds much to its convenience. Space saving devices in the kitchen make it a very efficient and compact little workroom.

Key to the "White" Products Used in the Plan.

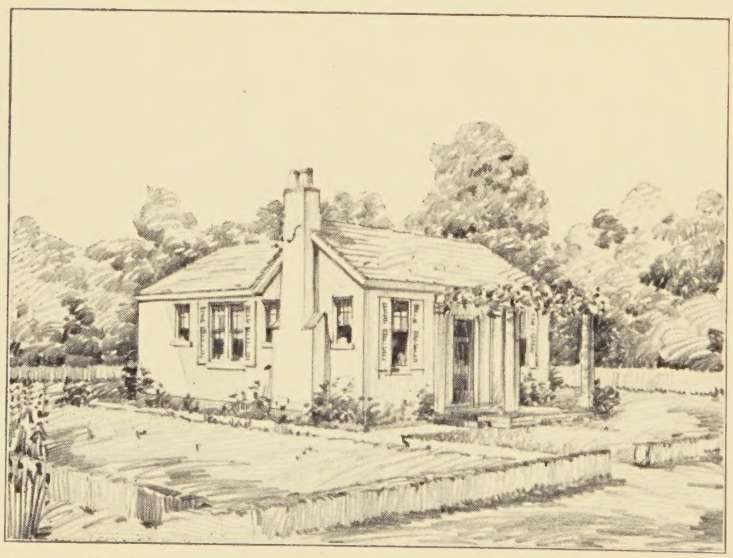
1. "White" Door Bed
2. "White" Dressing Cabinet
4. "White" Built-In Kitchen Cabinet and Refrigerator for Outside Icing
5. "White" China Cabinets
6. "White" Built-In Ironing Board and Cabinet
7. "White" Medicine Cabinet



BUNGALOW WITH A LARGE LIVING ROOM

Four Rooms With Five Room Efficiency

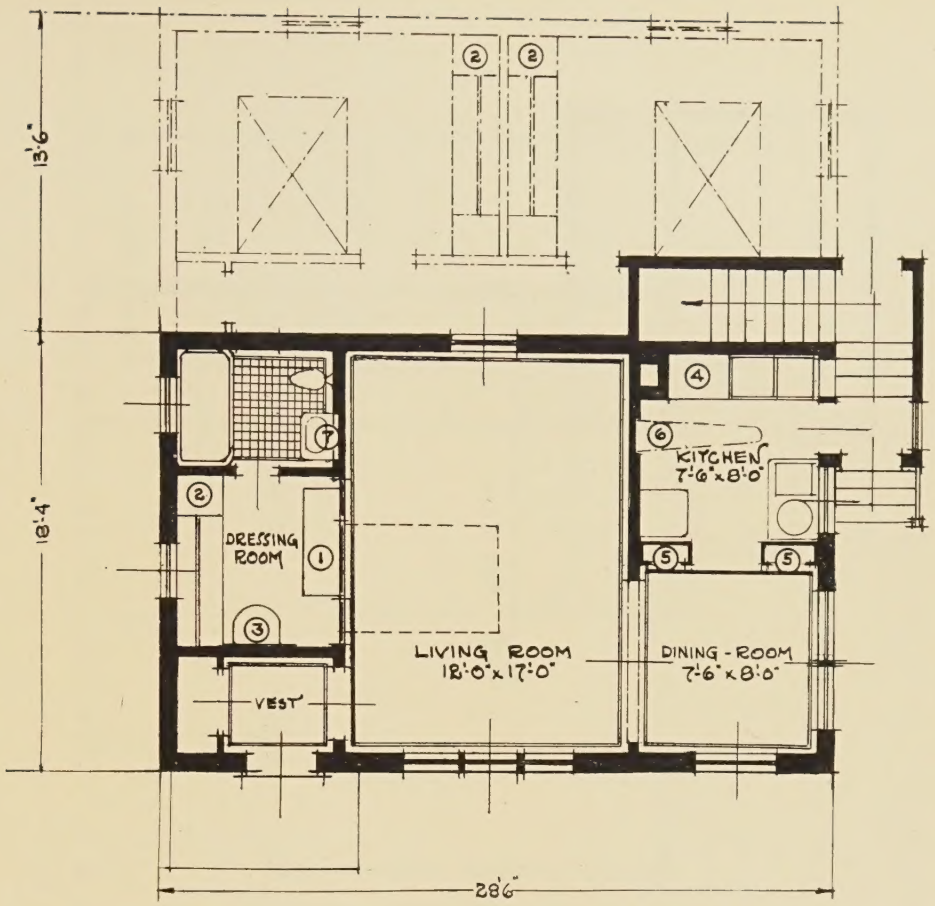
The large spacious living room is instantly transformed into a bedroom at night by pulling down the full size door bed. China cabinets, a kitchen cabinet and a folding ironing board save much space and many steps in the compact little kitchen,



Plan Number Three

Key to the "White" Products Used in the Plan.

1. "White" Door Bed
2. "White" Dressing Cabinet
3. "White" Dressing Table
4. "White" Built-In Kitchen Cabinet and Refrigerator for Outside Icing
5. "White" China Cabinets
6. "White" Built-In Ironing Board and Cabinet
7. "White" Medicine Cabinet



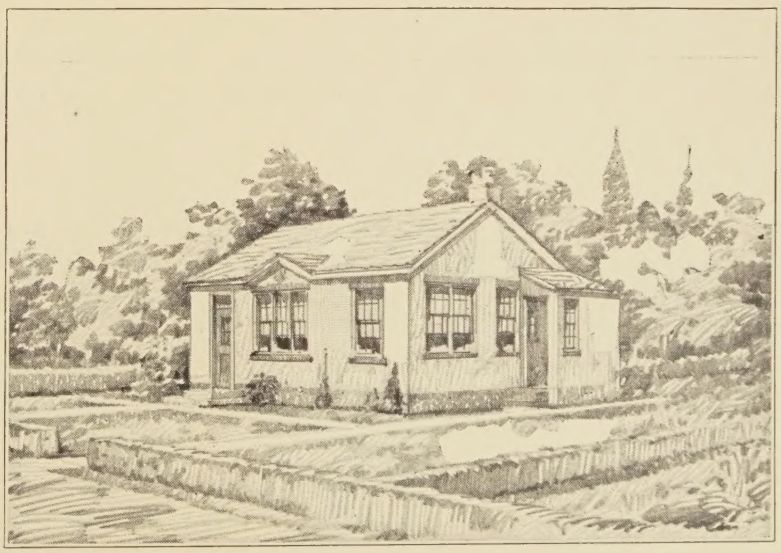
A MODEST, COMFORTABLE BUNGALOW

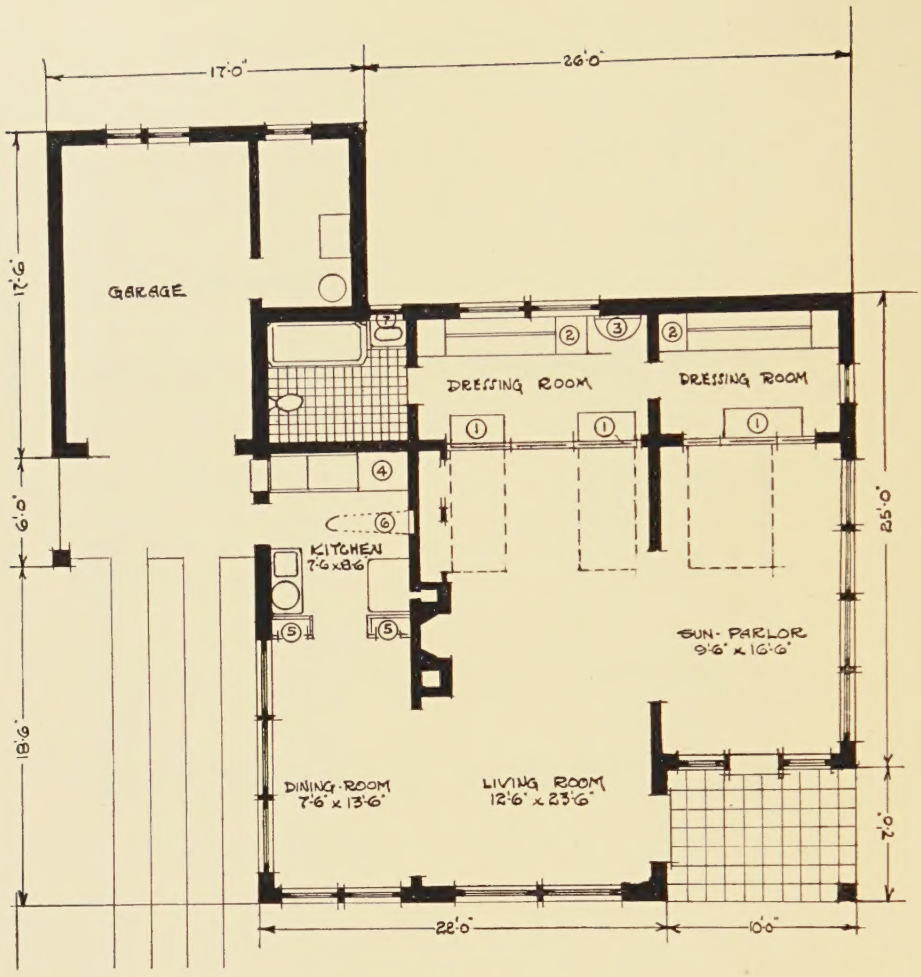
Three Rooms With Four Room Efficiency

In this small though comfortable bungalow, a full size door bed transforms the living room into a large chamber at night. If desired, two chambers may be built on later, equipped with "White" Dressing Cabinets. The kitchen is made much more efficient by the use of other space saving devices.

Key to the "White" Products Used in the Plan.

1. "White" Door Bed
2. "White" Dressing Cabinet
3. "White" Dressing Table
4. "White" Built-In Kitchen Cabinet and Refrigerator for Outside Icing
5. "White" China Cabinets
6. "White" Built-In Ironing Board and Cabinet
7 "White" Medicine Cabinet

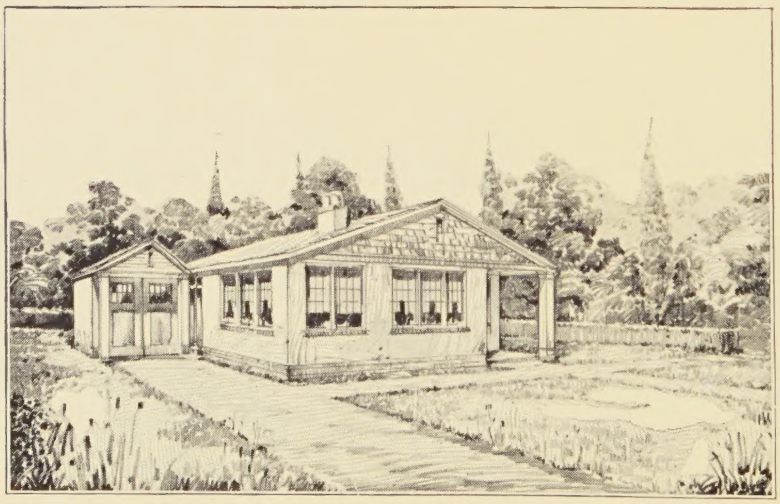




AN INEXPENSIVE, COMFORTABLE HOME

Four Rooms With Six Room Efficiency

Two unusually large and airy bedrooms are added without extra space to this home by pulling down the twin and full size door beds in the living room and sun parlor. The small kitchen is given the utmost efficiency by the use of "White" Space Saving Devices.



Plan Number Five

Key to the "White" Products Used in the Plan.

1. "White" Door Bed

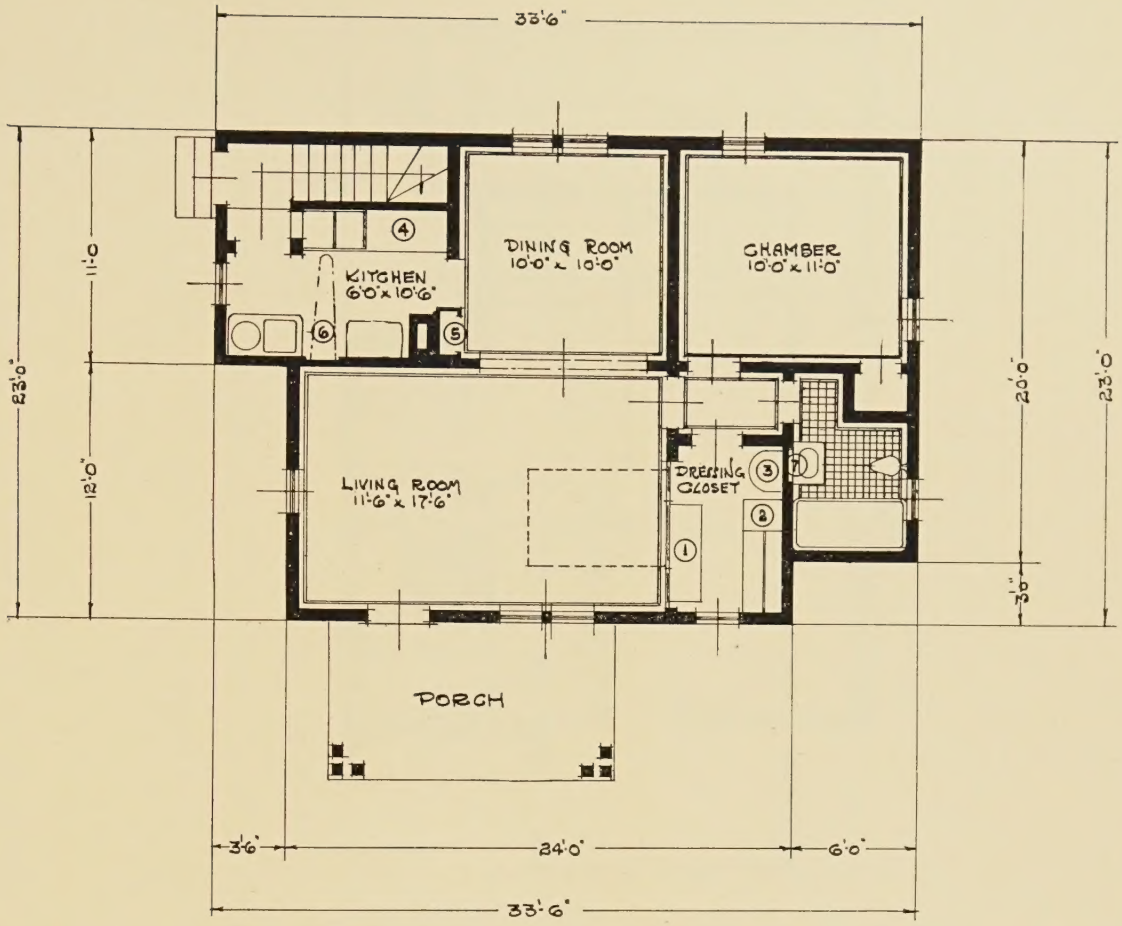
3. "White" Dressing Table
4. "White' Built-In Kitchen Cabinet and Refrigerator for Outside Icing
5. "White" China Cabinets
6. "White" Built-In Ironing Board and Cabinet
7. "White" Medicine Cabinet



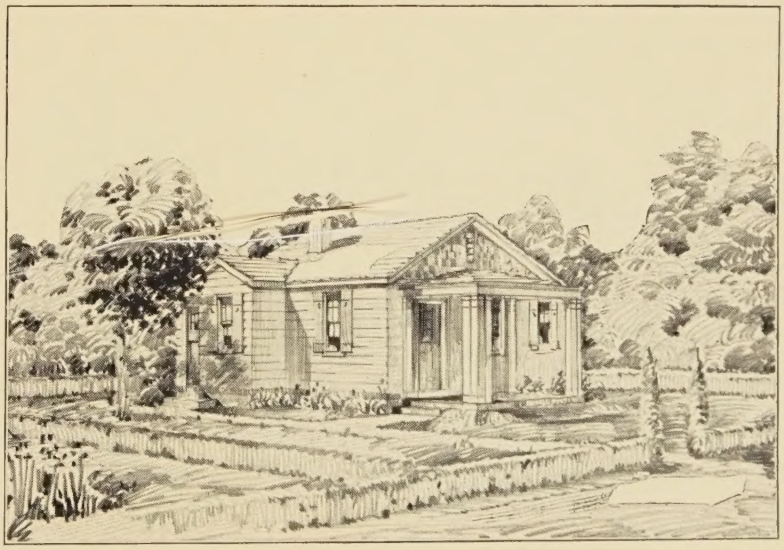
A BUNGALOW INEXPENSIVE TO BUILD

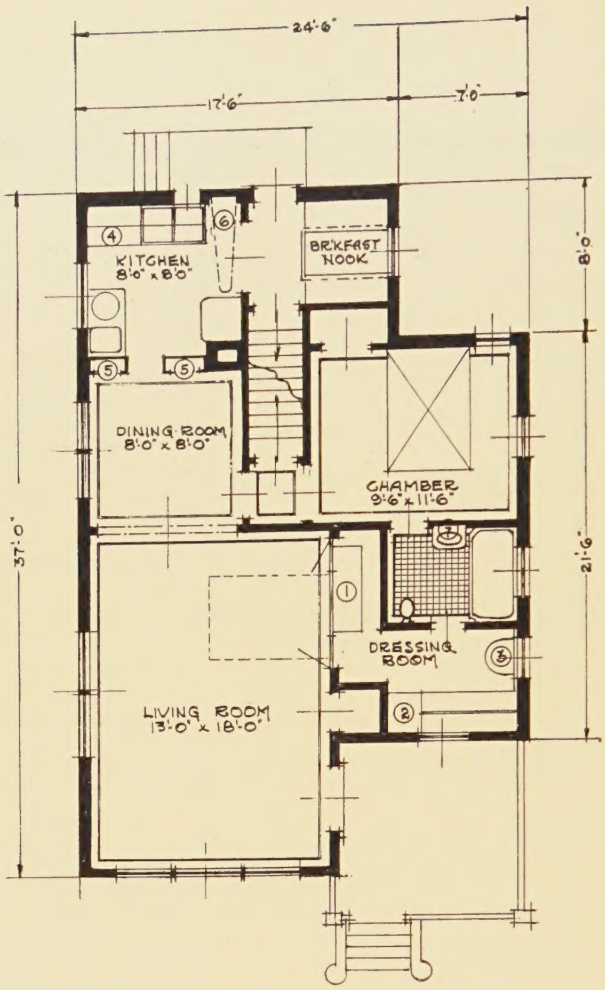
Four Rooms With Five Room Efficiency

All the comfort and convenience of an added chamber is embodied in this home by the use of a full size door bed and concealed dressing room in the living room. Much space has been saved in the kitchen by the efficient placing of "White" Space Saving Devices.

Key to the "White" Products Used in the Plan.

1. "White" Door Bed
2. "White" Dressing Cabinet
3. "White" Dressing Table
4. "White" Built-In Kitchen Cabinet and Refrigerator for Outside Icing
5. "White" China Cabinets
6. "White" Built-In Ironing Board and Cabinet
7. "White" Medicine Cabinet

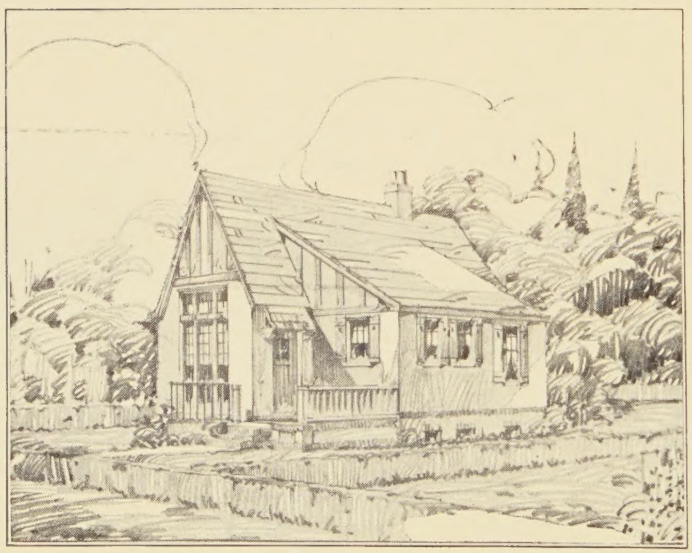




A STEEP ROOFED ENGLISH COTTAGE

Four Rooms With Five Room Efficiency

This attractive cottage embodies all the comfort and convenience of an added chamber, because of a full size door bed and an ingeniously concealed dressing room in the living room. Space saving devices in the kitchen make it a very compact and efficient workroom for the housewife.



Plan Number Seven

Key to the "White" Products Used in the Plan.

1. "White" Door Bed
2. "White" Dressing Cabinet

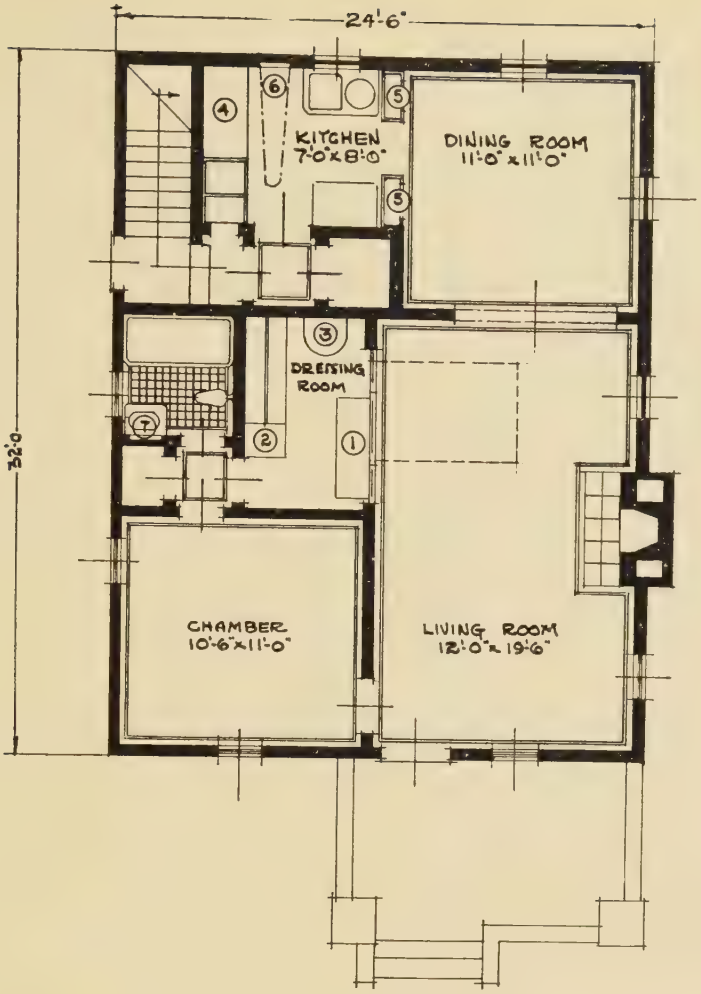
5. "White" China Cabinets
6. "White" Built-In Ironing Board and Cabinet
7. "White" Medicine Cabinet



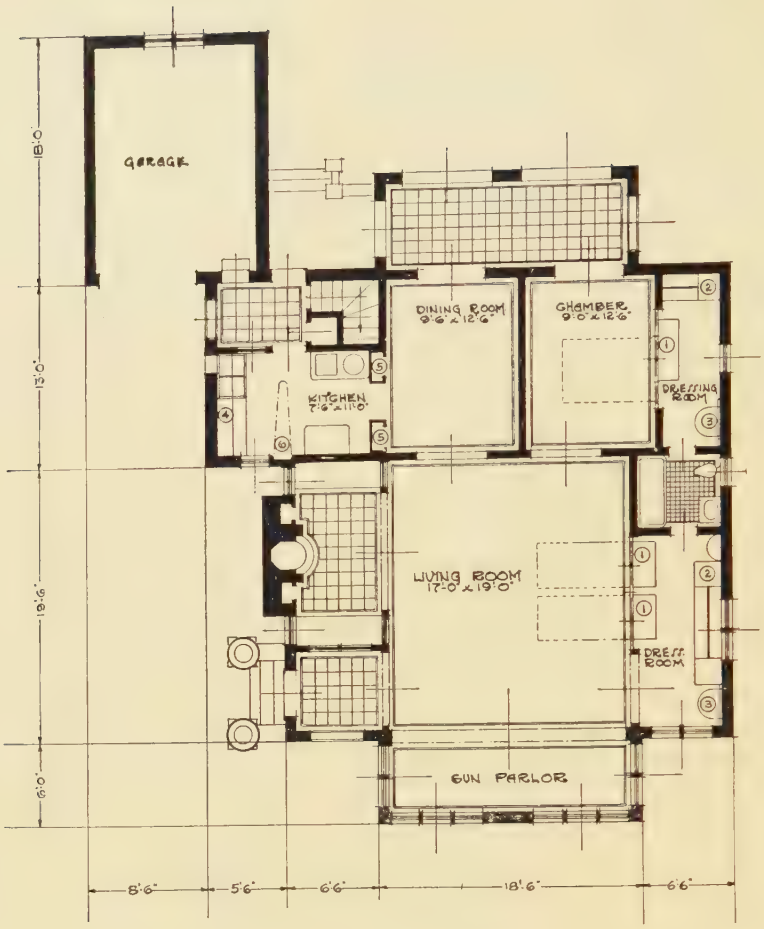
AN INEXPENSIVE HOME OF SIMPLE DESIGN

Four Rooms With Five Room Efficiency

Living room by day, bedroom at night,—that is what a full size door bed makes possible in this bungalow. The bathroom connects with both the chamber and the concealed dressing room. The kitchen, though small, is made very convenient by use of "White" Space Saving Devices.

Key to the "White" Products Used in the Plan.

1. "White" Door Bed
2. "White" Dressing Cabinet
3. "White" Dressing Table
4. "White" Built-In Kitchen Cabinet and Refrigerator for Outside Icing
5. "White" China Cabinets
6. "White" Built-In Ironing Board and Cabinet
7. "White" Medicine Cabinet



THE CHARM OF A SPANISH EXTERIOR

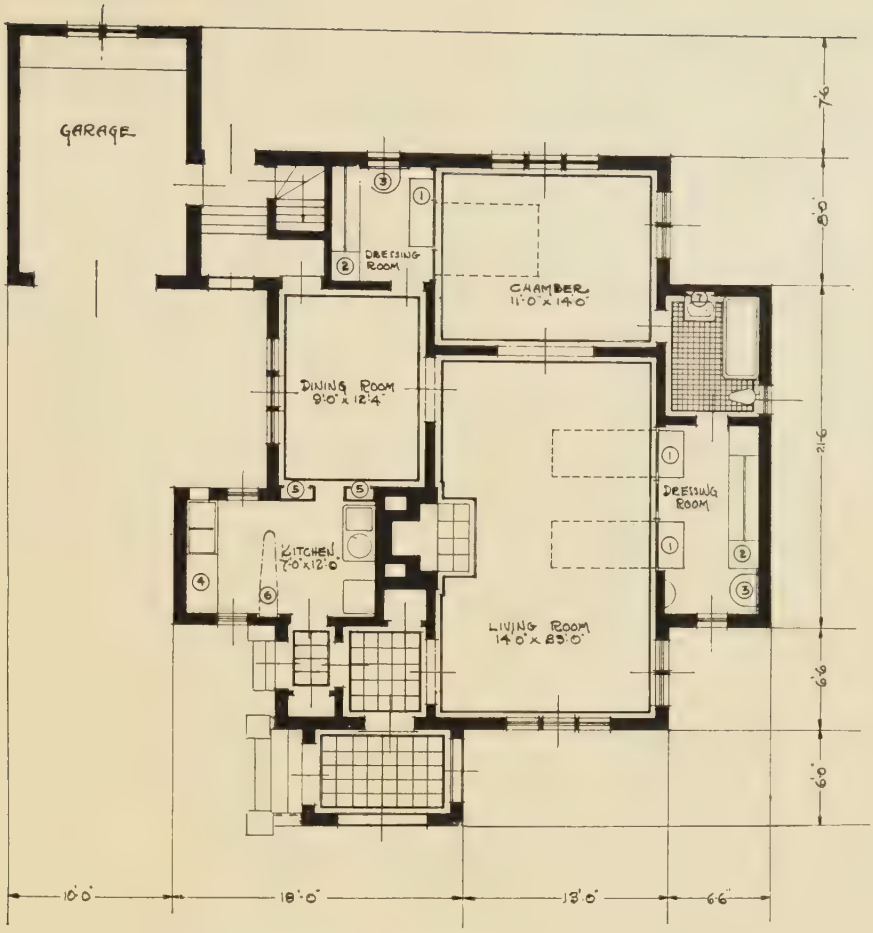
Four Rooms With Six Room Efficiency

Here is every comfort in a well built small home, with little housework. The chamber may be used as a sewing room by day without the loss of space caused by a stationary bed. Space saving devices in the kitchen add greatly to its efficiency.

Plan Number Nine

Key to the "White" Products Used in the Plan.

1. "White" Door Bed
2. "White" Dressing Cabinet
3. "White" Dressing Table
4. "White" Built-In Kitchen Cabinet and Refrigerator for Outside Icing
5. "White" China Cabinets
6. "White" Built-In Ironing Board and Cabinet



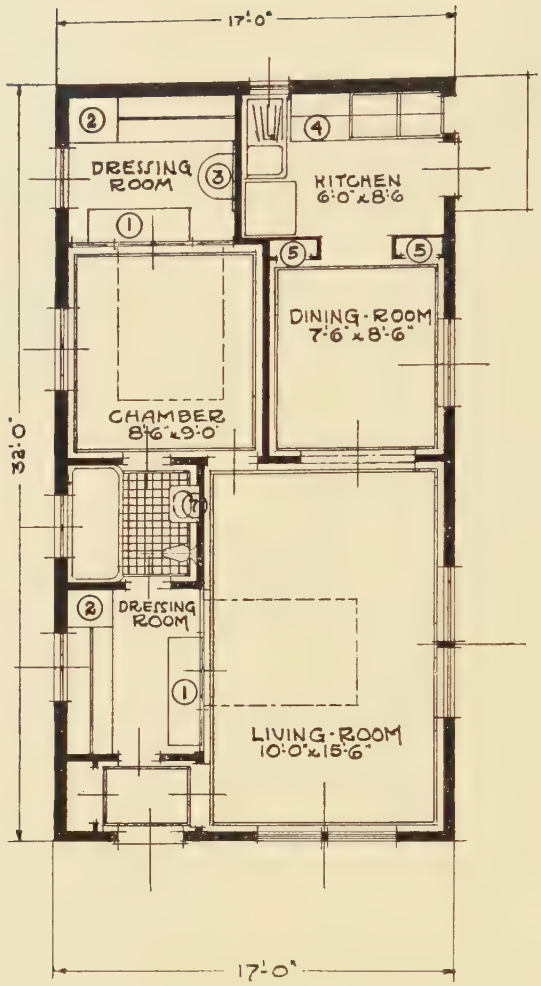
IDEAL FOR THE SMALL FAMILY

Four Rooms With Six Room Efficiency

"White" Door Beds really add two rooms to this cottage. The living room becomes an airy bedroom at night and the chamber may serve other purposes by day without the loss of space caused by stationary beds. The kitchen is efficiently equipped with "White" Space Saving Devices.

Key to the "White" Products Used in the Plan.

1. "White" Door Bed
2. "White" Dressing Cabinet
3. "White" Dressing Table
4. "White" Built-In Kitchen Cabinet and Refrigerator for Outside Icing
5. "White" China Cabinets
6. "White" Built-In Ironing Board and Cabinet
7. "White" Medicine Cabinet



A CHARMING LITTLE FRAME BUNGALOW

Four Rooms With Six Room Efficiency

Adaptable to a very narrow lot, yet of excellent architectural features. A good example of space saving made possible by the use of "White" products. Equipped with door beds, the living room and chamber perform a different duty by day and by night.

Plan Number Eleven

Key to the "White" Products Used in the Plan.

3. "White" Dressing Table
4. "White" Built-In Kitchen Cabinet and Refrigerator for Outside Icing
6. "White" Built-In Ironing Board and Cabinet
7. "White" Medicine Cabinet

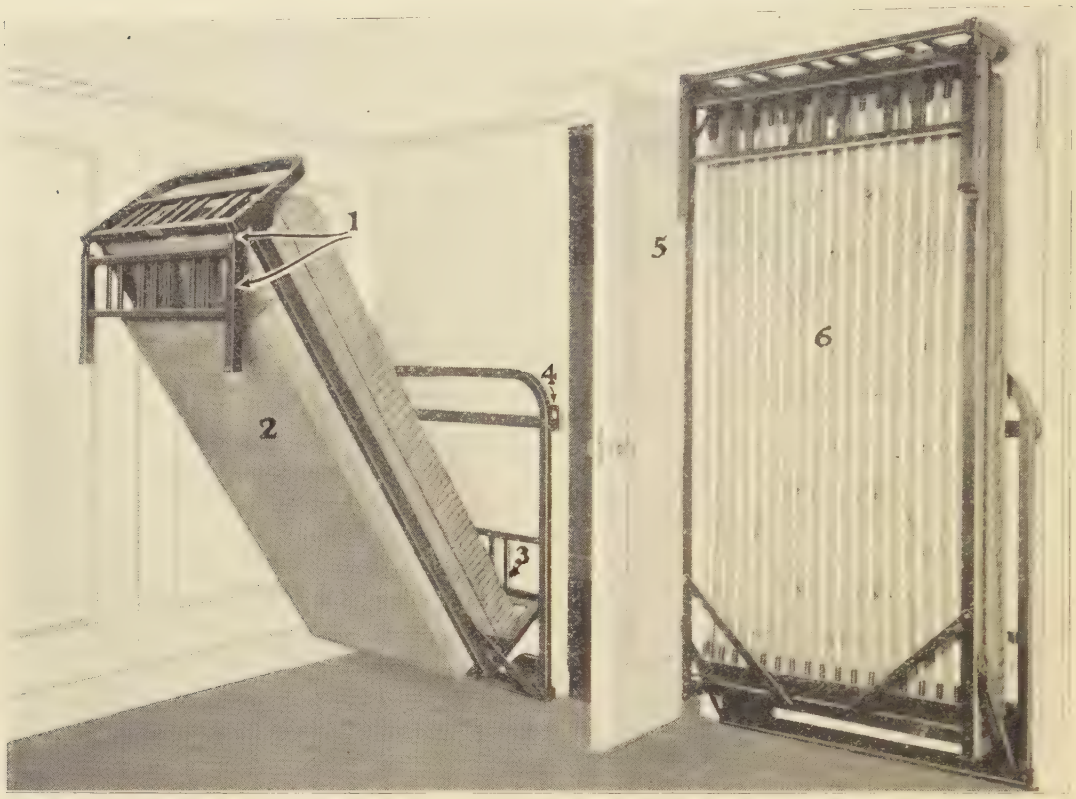
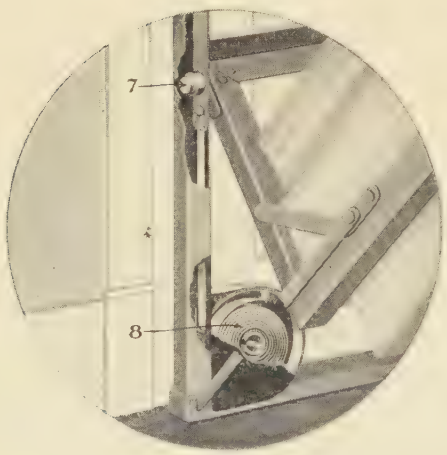
Plan Number Twenty

The "White" Door Bed



Exclusive Points of Superiority of the "White" Door Bed

1. Automatic locking device holds legs rigid and secure. No danger of collapsing. Legs swing automatically into position when bed is raised or lowered. No pulling or adjusting.
2. Full box spring, luxurious and comfortable, set in side rail same as standard metal bed. (Standard equipment).
3. Sliding head board operates on easy moving rollers and holds pillows in position.
4. Bed is held by its own weight in socket plates on each side of door and may be instantly lifted off door if desired.
5. Panel Door can be opened or closed when bed is either up or down, allowing entrance to dressing room at all times.
6. 20 year guaranteed fabric spring with which bed is equipped if box spring is not desired.
7. (Illustrated below). Bed operates smoothly and easily on roller inside of head post.
8. (Illustrated below). The Convolute Spring gives perfect balance, easy operation and greatly increases the strength of the bed.



Convolute Spring Balance

An entirely new principle in disappearing bed construction has been applied in "White" Door Beds. Powerful convolute spring balances are used which will balance any weight ranging from 24 to 200 pounds. This means that the changing of bedding has no effect on the balances and and does not necessitate readjustment. Balances operate ***parallel*** with the door, relieving door strain, and thus cannot warp the door. The bed is perfectly balanced and will remain in any position without falling. It may be released in midair and it will not close up or drop. The 15 ft. long spring gets so little usage by the bed, which draws out only 19 in. of it or about $1\frac{1}{2}$ revolutions when lowered, that the life of the balance is practically everlasting.

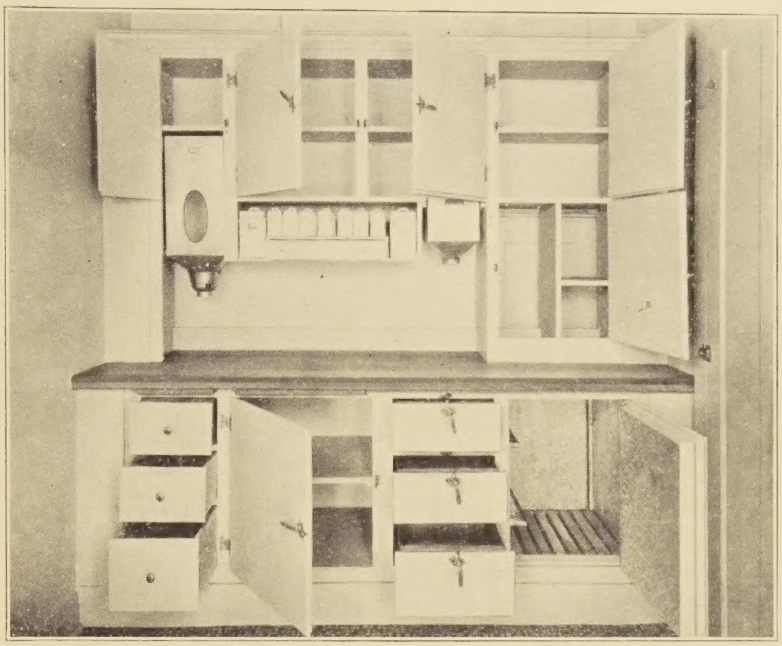
Completely enclosed and protected against accumulation of dust; requires no attention or adjustment.

Living room with beds exposed, showing dressing room with "White" Dressing Cabinet and Dressing Table.

Complete plans and specifications of the various types of installation of the "White" Door Bed are shown in our descriptive catalog WK97 which will be sent on request.

"White" Space Saving Devices

"White" Space Saving Devices are ideal for the apartment and bungalow. They allow a material reduction in building costs and space required and add greatly to the convenience, efficiency and attractiveness of the home.



The "White" Kitchen Cabinet

The "White" Kitchen Cabinet is the finest and most complete kitchenette fixture made. It is a commodious cabinet combining a refrigerator, work table and pantry in a single unit. Ideal for the small kitchen.
